WITec Paper Award

The annual WITec Paper Award recognizes exceptional scientific papers published in peer-reviewed journals that include results acquired with a WITec microscope. Scientists from all over the world are invited to submit research that appeared (in print or online) during the previous year.

The publication must be in English and the use of a WITec microscope should be clearly documented in the paper itself or its supporting information. Work co-authored with an employee of the Oxford Instruments Group is not eligible for a WITec Paper Award.

Any co-author can submit a paper and their participation will automatically enter their name in a prize draw, which will take place shortly after the submission deadline. This year there is the chance to win one of 10 poster rolls. Submitting multiple publications per year is allowed and increases the chance of winning.

Publications from the year can be submitted until January 31 of next year.

An Oxford Instruments WITec jury will evaluate the submitted papers in terms of scientific relevance, data quality and the level of instrument feature utilization to determine the winners. The first author(s) of the three winning publications will receive Amazon™ gift cards as prizes: 500 EUR, 300 EUR and 200 EUR for the Gold, Silver and Bronze Awards, respectively.

HOW TO CONTRIBUTE:

01 Send your paper(s) in PDF format to papers.witec@oxinst.com. Include the supplementary information (if applicable) and your full contact information.

02 Receive a poster roll if you're one of the 10 winners of the prize draw.

03 Await the results of the WITec Paper Award competition.
